## **Fresenius Kabi Initiates Infusion Pump Validation with Leading EMR Company**

**LAKE ZURICH, III.**, December 15, 2015 – Fresenius Kabi, a global health care company that specializes in medicines and technologies for infusion, transfusion and clinical nutrition, announced today it has signed a global, multi-year agreement with Epic Systems Corporation to validate the interoperability of its electronic medical record (EMR) platform with Fresenius Kabi infusion systems.

“Our agreement with Epic is another step in positioning Fresenius Kabi pumps with customers around the world as they look to meet their EMR goals and achieve device connectivity standardization,” said Christian Hauer, president, medical devices at Fresenius Kabi. “Fresenius Kabi will continue to develop and certify its current and future infusion devices with Epic and other leading EMR providers.”

A global leader in infusion technology, Fresenius Kabi markets its Agilia® ([www.fresenius-kabi.us/agilia](http://www.fresenius-kabi.us/agilia)) large volume infusion pump and related disposables in the U.S. and more than 95 other countries.
